

BUILDING OFFICIALS ASSOCIATION OF GEORGIA

52ND ANNUAL CONFERENCE

Quality Inn Merry Acres Event & Conference Center

Albany, Georgia

April 9-13, 2010

Join your fellow building officials, educators, vendors, contractors, architects, engineers and developers at the 52nd Annual Building Association of Georgia Conference in Albany, Georgia. This year's conference is sure to be an educational and fun filled event with numerous opportunities to learn, network, view new products and to interact with the experts in the construction industry.

Highlights of the conference will include: a welcome to Albany Social on Friday night; a full day of education and vendor presentations with an auction to benefit the BOAG scholarship fund on Saturday; a four man scramble golf tournament or a tour of some of Albany's most historic places on Sunday; continuing education classes and legal updates on Monday; and a continuation of classes on Tuesday with the close-out dinner and awards banquet on Tuesday night.

Educational opportunities include Energy Conservation with LEED & Green Building Technology focus, Legal updates on Construction Law and License issues, Environmental Concerns and much more. Experts from Georgia Power, Georgia Department of Community Affairs, Georgia Environmental Protection Division, Georgia Plumbing Trade Association, Atlanta Gas & Light, The International Code Council, Secretary of States and others, will be on hand to provide information and training in their respective fields.

Vendors will be available for display and presentation of the latest in Electrical, Plumbing, HVAC, Gas and Building products to make your development projects code compliant and to insure you are reaching the maximum potential of your time and profits while assuring you can pass that all important inspection. All the construction trades can benefit from these valuable and informative presentations and being in the same room with the code officials will allow you an opportunity to discuss how these products fit in your community. Even more, you can obtain those all important CEU's.
